

Justin Dietert

OBJECTIVE

To combine my 10 years of graphic design experience with my full-stack programming skills to add value to a company that demands only the best from its employees and values mentorship and continued learning.

EXPERIENCE

Codeup Bootcamp Projects

APRIL - MAY 2015 | SAN ANTONIO, TX

- *Adlister*: a Craigslist clone created in PHP over the course of one week with a partner. My main contributions were designing and building a customized front-end with the Zurb Foundation framework and integrating it with the backend functionality.
- *Blog(justindietert.com)*: a solo two-week portfolio and resumé project, as well as a personal blog. Built with Laravel, utilizing the full LEMP+J stack. I also used SASS and implemented a custom responsive grid system, as well as custom JavaScript/jQuery components.
- *TyleNinja*: a two-week team capstone project. TyleNinja is a tile-sliding puzzle game web app, built from scratch using Laravel, JavaScript, jQuery, and MySQL. The full application can be viewed at <http://tyle.ninja/>.

Senior Graphic Designer

TEXAS STATE UNIVERSITY, OFFICE OF UNIVERSITY MARKETING

JULY 2012 - DECEMBER 2014 | SAN MARCOS, TX

- Worked with clients from many of the diverse departments and offices of the university to effectively market their programs and services to both internal and external audiences
- Designed within the university's branding guidelines, managing multiple projects simultaneously from conception to completion while collaborating with a team of writers, photographers, and videographers
- Projects included publication design, magazine ad design, invitation design, brochure design, logo design, booklet design, email marketing, and other printed materials

Marketing and Design Manager

DIGITAL PRO LAB

2010 - 2012 | SAN ANTONIO, TX

- Increased sales and revenue by marketing company services to professional clients and supervised design staff to ensure success of projects
- Lead designer for print and online advertising campaigns and in charge of monthly email newsletters from concept to HTML code

Graphic Designer

DIGITAL PRO LAB

2005 - 2010 | SAN ANTONIO, TX

- Worked with in-house design team to create digital and print marketing material for company and professional clients while managing multiple projects and meeting tight deadlines
- Supervised company website re-design while providing support to in-house web designer through the creation of graphics and written content
